Wildlife Status

- **Count trend**: gives the species status in the conservancy based on game count trend data.
- **Landscape status**: gives the species status in the focal landscape; for example, lions may cause local problems, but are of high value and may be rare at landscape level.
- **Desired number**: gives the species status in the conservancy based on what the conservancy would like to have.
- **dark green** (abundant) – there should be less;
- **light green** (common) – there should be more than double;
- **red** (very rare) – there should be more than triple;
- **green** (rare) – there should be more than double;
- **yellow** (uncommon) – there should be more;
- **light orange** (very rare) – there should be more than triple;
- **red** (extinct) – the species needs to be reintroduced.

Locally rare species

- Some wildlife can cause conflicts, threats such as human wildlife conflict, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, poaching and other issues can be minimised.

Predator monitoring

- charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

Annual game count

- charts show the number of animals seen each year per 100 km driven during the game count status barometers reflect the general count trend over the last 5 years

Annual rainfall

- charts show the annual rainfall in millimetres

Wildlife introduces

- Hand
- Hartbeest
- Gemsbok
- Giraffe
- Springbok

Wildlife mortalities

- Hand
- Kudu
- Springbok
- Other

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.
Enabling wise conservancy governance...

Conservancy statistics

Date Registered: March 2003
Population (2011 census): 750
Size (square kilometres): 1437

Conservancy Governance

Number of management committee members: Men: 9; Women: 15
Date of last AGM:
Attendance at AGM: Men: ; Women:
Date of next AGM:

Other important issues
- Financial report approved?
- Budget approved?
- Work plan approved?
- Chairperson's report approved?

Employment

Conservancy staff: Male 3
Female 0
Community game guards: 2
Community resource monitors: 0
Lodge staff: Male 0
Female 0

Benefits

Cash
Meat Distribution (1 Hartebeest, 3 Springboks)
Meat Distribution (10 Guinea Fowls, 3 Springboks)
Meat Distribution (2 Springboks)
Meat Distribution (2 Springboks, 1 Oryx)
Meat Distribution (3 Springboks, 1 Oryx)

In Kind

Conservancy Self Evaluation How well does the conservancy consider it has performed in the past year?

<table>
<thead>
<tr>
<th>Effectiveness of implementation</th>
<th>Poor</th>
<th>Fair</th>
<th>Good</th>
<th>Prev. Year</th>
<th>Explanation of effectiveness rating</th>
