Conservancies are areas set aside to manage wildlife and other natural resources for the benefit of all stakeholders, while maintaining sustainable use of these resources. They are managed by elected committees and employed staff, ensuring the long-term survival of wildlife and conservation goals.

**milesstones and successes**

- 1990: The Grootberg Farmers' Union is formed
- 1992: Policy changes allow communal area residents to benefit from wildlife and tourism by forming conservancies
- 1993: The Forum for Integrated Resource Management is established
- 2000: Gemsbok are translocated to ≠Khoadi-//Hôas
- 2004: ≠Khoadi-//Hôas is one of the first conservancies in Namibia to reintroduce black rhino
- 2005: Grootberg Lodge opens, making ≠Khoadi-//Hôas the first conservancy in Namibia to fully own its own lodge
- 2005: Hoada Camp, a community campsite, opens
- 2007: The Ministry of Environment and Tourism awards the rights to the Hobatere Tourism Concession to the conservancy
