Editorial

Timothy O. Osborne

This edition has been edited 16,000 km from Namibia while I was in Alaska visiting our daughters and granddaughters. When we arrived in early March it was -30°C and the only birds I saw were hardy winter birds like ravens, redpolls and ptarmigan. Now it is Easter and the sun is shining, the snow is melting fast in the 10°C weather and Trumpeter swans, Canada geese and mallards are arriving into the snow-melt ponds. I have been out of touch with the Bird Club but I note that still our membership has not increased with the new year. Again I have to appeal for everyone to give out membership forms to people you know who are not members. How many of you have done this? The Club is slowly withering on the vine and it is frustrating for those of us who live somewhere other than Windhoek. We do not know what is going on with the Club. Are we perishing as a Club or not, that is the question? Certainly birding is growing worldwide and I would hate to think that we are not part of that trend.

At least I am still receiving articles for *Lanioturdus*, which means that there are still interested Bird Club members who want to communicate with their fellow members. As the article on Herero Chats shows us there is still plenty to be learned about our local birds. We have another chapter in the Paxton boat saga. He is still looking for volunteers (victims) to assist him as he tries to count birds on the various waterways of the north. One place he has not counted yet is the Orange River. Perhaps it is too tame without his usual challenges of crocs, hippos, bilharzia and UNITA soldiers.

RED-FOOTED BOOBY AT WALVIS BAY

Robert J. Douthwaite

bobdouthwaite@onetel.net.uk

An immature Red-footed Booby was seen in Walvis Bay, about 1 km south of Pelican Point, on 12 January 2003. The post on which it is resting in the photograph was about 25 cm in diameter; the bird was a little smaller than the Cape Cormorants perched nearby. The distinctive red feet are clear in the original colour photograph. I understand that the bird was in the area for about two weeks.

NAMIBIA BIRD CLUB

NOTICE TO CONTRIBUTORS

Lanioturdus publishes articles and notes of broad birding interest to the membership of the Namibia Bird Club. Contributors should look at recent issues of the magazine for guidance and suitability and presentation of material. Manuscripts in English, German or Afrikaans are requested and should be typed in double spacing on A4 paper. If papers are submitted in German or Afrikaans a short English summary should accompany the article. For papers in English summaries in German or Afrikaans may also be submitted. Sketches, maps and figures should be submitted on good quality white paper in black ink. High contrast black and white or colour photographs (prints or transparencies) may be submitted to illustrate articles. Artwork illustrating any aspect of birds and/or birding are also requested. All submissions should have the author's address, contact telephone number and e-mail address (if applicable).

The preferred medium of submission for articles is either computer disk (high density 3.5") or attachments to e-mails. The preferred word processing programme is MS Word Version 7.0 on Windows 95. Any other programmes are acceptable but authors should also include an alternate version in either text only (.txt) or rich text format (.rtf) files. Handwritten articles are acceptable but must be printed and legible. Short notes and observations should be submitted on a quarterly basis.

All disks and photographs will be returned to authors but manuscripts will not be returned. A single copy of the issue in which your article appeared will be sent to the senior author.

The editor is allowed a wide latitude in choice of materials, thus any views and opinions expressed here are not necessarily those of the Namibia Bird Club. All material in *LANIOTURDUS* is copyright and permission to reproduce material should be negotiated with the Editor.

All contributions for *LANIOTURDUS* should be sent to:

The Editor *LANIOTURDUS* or nwg@iafrica.com.na
