About the Namibia Bird Club
The Namibia Bird Club was founded in 1962 and has been active since then. The club’s mission is to contribute to Namibian ornithology by, amongst other things, arranging regular birding outings, conducting bird ringing and atlasing excursions and educating the public about the value of birds. To achieve this, we organise monthly visits to interesting birding sites around Windhoek as well as regular visits to Avis Dam and the Gammams Water Care Works and occasional weekend trips further afield. Bird club members also participate in the African Waterbird Census twice a year.

Experienced birders are more than happy to help beginners and novices on these outings. If you have a transport problem or would like to share transport please contact a committee member. Depending on the availability of speakers and suitable material we present occasional lecture or video evenings at the Namibia Scientific Society premises. Members receive the bird club’s journal, *Lanioturdus* and outings and events are advertised on the club’s website [www.namibiabirdclub.org](http://www.namibiabirdclub.org).

The Namibia Bird Club is not affiliated to any global or regional organisation and relies entirely on members’ subscriptions and donations to fund its activities.

The opinions expressed in this journal are those of the authors and not necessarily those of the Namibia Bird Club or its committee.
